Domingo Delos Angeles B. Anam

Frontend Developer Â· Full-Stack Capable

domingoanam62@gmail.com github.com/DomingoAnam

OVERVIEW

Frontend developer and Bachelor of Science in Information Technology student focused on building clean, responsive web experiences. Comfortable exploring full-stack development, including application logic, databases, and cloud services. Interested in practical technology that improves everyday work, with project experience contributing ideas and system improvements to a school management information system.

Uses AI-assisted development to prototype websites and troubleshoot bugs more efficiently, then reviews, tests, and refines the results.

EDUCATIONAL BACKGROUND

Bachelor of Science in Information Technology (BSIT)

Graduated: Cebu Technological University - Argao Campus | 2027

SKILLS AND QUALIFICATIONS

- **Frontend:** HTML, CSS, JavaScript, React, Vite, responsive web design
- **Mobile:** React Native, Expo
- **Backend:** Node.js, Express.js
- **Databases & cloud:** MySQL, Firebase, Supabase
- **IoT & hardware:** Arduino, ESP8266, ESP32
- **Development approach:** AI-assisted prototyping, troubleshooting, testing, and iteration

WORK EXPERIENCE

Project experience

- **MyASGC â€" Management Information System**
  Created a school management information system to help reduce manual logging, enrollment, and routine administrative work, making school processes easier and faster.
- **TAWAGKO â€" Application Project**
  Application development project.
- **FindBack â€" Application**
  Application development project.
- **PigFeeder â€" IoT Project**
  IoT project focused on a pig-feeder system.

AWARDS AND ACHIEVEMENTS

- **Certificate of Participation â€" Cebu ICT Student Congress 2026**
  Participated in the congress themed â€œIT Education in the Exponential Era: Cultivating Minds for Cognitive Future,â€ held April 30, 2026, at the UC New Cebu Coliseum, Cebu City. Organized by PSITE Central Visayas in cooperation in the University of Cebu.
- **Course Completion â€" Introduction to Cybersecurity**
  Completed the Cisco Networking Academy student-level course; certificate issued September 10, 2026.
